iPhone 11+	iOS 13.0+	✓ Full Support
iPhone 12+	iOS 14.0+	✓ Full Support
iPhone 13+	iOS 15.0+	✓ Full Support
iPhone 14+	iOS 16.0+	✓ Full Support
iPhone 15+	iOS 17.0+	✓ Full Support
iPad Air	iOS 11.3+	✓ Full Support
iPad Pro	iOS 11.3+	✓ Full Support
iPad Mini	iOS 11.3+	✓ Full Support

# Detailed Installation Steps

## For iPhone Users:

### 1. Prepare Your Device

- Ensure iOS 11.3 or later
- Have at least 50MB free storage
- Use Safari browser (not Chrome, Firefox, etc.)

### 2. Access the App Package

- Download the ZIP file from your team leader
- Extract it using Files app or transfer to device
- Locate `islamic-study-guide-mobile.html`

### 3. Install the App

- Open Safari on your iPhone
- Navigate to the HTML file
- Wait for the page to fully load
- Tap the Share button (square with arrow up) at bottom
- Scroll down to find "Add to Home Screen"
- Tap "Add to Home Screen"
- Customize the app name if desired
- Tap "Add" to confirm installation

### 4. Launch Your App

- Go to Home Screen
- Find your Islamic Study Guide app icon
- Tap to launch
- Enjoy your Islamic research tool!

## For iPad Users:

### 1. Prepare Your Device

- Ensure iOS 11.3 or later
- Have at least 50MB free storage

- Use Safari browser

## **2. Access the App Package**

- Download the ZIP file from your team leader
- Extract it using Files app
- Locate islamic-study-guide-mobile.html

## **3. Install the App**

- Open Safari on your iPad
- Navigate to the HTML file
- Wait for the page to fully load
- Tap the Share button (square with arrow) at top right
- Select "Add to Home Screen"
- Tap "Add" to confirm installation

## **4. Launch Your App**

- Go to Home Screen
- Find your Islamic Study Guide app icon
- Tap to launch
- Enjoy your Islamic research tool!

## Troubleshooting Guide

### "Add to Home Screen" Not Showing?

- **Wrong Browser** - Use Safari only (iOS requirement)
- **iOS Version Too Old** - Update to iOS 11.3 or later
- **Page Not Fully Loaded** - Wait for complete loading
- **Safari Cache Issues** - Clear Safari cache and data
- **Private Browsing Mode** - Exit private browsing

### App Not Working Offline?

- **Wait for First Load** - App needs to cache content first (1-2 minutes)
- **Check Storage Space** - Need at least 50MB free storage
- **Reinstall App** - Delete and reinstall if needed

### Icon Not Appearing on Home Screen?

- **Check Home Screen Pages** - Swipe left/right to check all pages
- **Check App Library** - Icon might be in App Library
- **Restart Device** - iOS system issue resolution

# Pro Tips for Beta Testers

## 1. Test All Features

- **Quran Search** - Try different Surah names
- **Hadith Search** - Test various topics
- **Fiqh Topics** - Explore different categories
- **DeenBot** - Ask various Islamic questions

## 2. Test Offline Functionality

- Turn off WiFi after first load
- Test all sections without internet
- Verify content is accessible offline
- Check performance in offline mode

## 3. Test Different Devices

- iPhone - Test on various screen sizes
- iPad - Test landscape and portrait modes
- iOS Versions - Test on different iOS versions if possible

## 4. Performance Testing

- Loading Speed - Time how fast pages load
- Touch Response - Test touch interactions
- Memory Usage - Check if app uses too much memory
- Battery Impact - Monitor battery usage

## 5. User Experience Testing

- Navigation - Test all navigation paths
- Search - Test search functionality

- Content - Verify content accuracy
- Design - Check visual consistency

## Feedback Form

### Please Report:

#### Installation Experience

- ☐ Installation successful on first try
- ☐ Installation required troubleshooting
- ☐ Installation failed completely
- ☐ Device model and iOS version

#### App Performance

- ☐ Fast and responsive
- ☐ Slow but functional
- ☐ Laggy or unresponsive
- ☐ Crashes or freezes

#### Content Quality

- ☐ All content loads correctly
- ☐ Some content missing
- ☐ Content errors found
- ☐ DeenBot working properly

### User Experience

☐ Easy to navigate

☐ Confusing navigation

☐ Beautiful design

☐ Design issues found

### Offline Functionality

☐ Works perfectly offline

☐ Some features don't work offline

☐ Completely broken offline

☐ Offline performance issues

### Additional Comments:

*[Please write any additional feedback, suggestions, or issues you encounter]*

## You're All Set!

Your iPhone/iPad now has a **professional Islamic research app** that:

- **✓ Works offline - No internet needed**
- **✓ Looks native - Feels like a real iOS app**
- **✓ Updates automatically - Always current content**
- **✓ Integrates perfectly - Works with iOS features**

## Need Help?

- **Installation Issues** - Check troubleshooting section above
  - **Technical Problems** - Contact your team leader
  - **Content Questions** - Use DeenBot AI assistant
  - **General Support** - Refer to team documentation
